YOUR PARTNER TO TAKE YOU FAR

The TERRITO range

Putting versatility and high performance to work on your intercity and school routes.

The TERRITO stands out thanks to its versatility and ability to meet a wide range of passenger transport requirements.

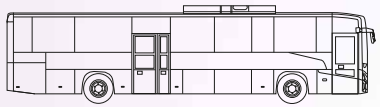

The passenger compartment of the bus service version offers a well-lit space using modern LEDs, while the reclining seats provide a high level of comfort. With its central double doors, its wheelchair space and optional lifting platform, accessibility for all passengers is a key part of the range's design philosophy.

The model is also available with specifically adapted, cost-effective finishings for school routes. Last but not least, **TERRITO** coaches are available with several different engine options, whether that's electric, natural gas or biodiesel, helping operators to implement sustainable mobility solutions.

500 km Range

With a 500 km range, the **e-TERRITO U** offers a high-performance 100% electric mobility solution for intercity and school routes. Powerful and versatile, it comes with the latest comfort, safety, and driver assistance features, allowing public and private transport operators to transform the energy model of their regular lines while running with zero emissions

The **e-TERRITO U** maintains an optimal capacity of 63 seats with a 450 kWh battery, reflecting an optimized design that combines energy efficiency and passenger comfort. Its fully electric operation also makes it ideal for Low Emission Zones (LEZs), ensuring both operational efficiency and compliance with environmental regulations. Thanks to its 100% electric design, it is also perfect for travel in Ultra Low Emission Zones (ULEZ) and Clean Air Zones (CEZ), providing the perfect mix of operational efficiency and compliance with environmental standards.

Zero emission
100% electric

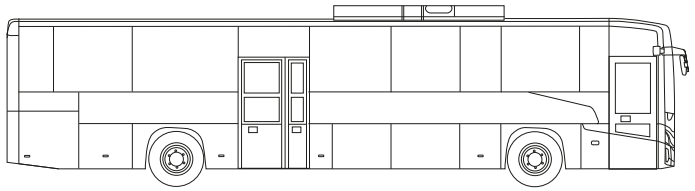

- **Power and performance**
- **Battery technology**
- **Accessibility for all**
- **Battery range: Up to 500 km***
- **Modular battery packs, tailored to your needs, with 4 possible configurations.**

With a maximum power of 410 kW and a torque of 3,100 Nm, the e-TERRITO U combines power and responsiveness, guaranteeing a smooth and pleasant drive.

The **e-TERRITO U** is equipped with lithium iron phosphate (LFP) batteries in the holds, which provide an optimised centre of gravity as well as improved stability and handling for a smooth drive.

With its central double doors, wheelchair space and optional lifting platform, the **e-TERRITO U** ensures easy and inclusive access for all passengers.

12,200 × 2,550 × 3,500 mm

Up to **57** seated passengers.
Standing capacity varies depending on battery type

Up to 450 kWh (15 packs)

e-TERRITO U 13

13,000 × 2,550 × 3,500 mm

Up to **63** seated passengers.
Standing capacity varies depending on battery type

Up to 450 kWh (15 packs)

* Depending on usage and weather conditions.

TERRITO U CNG

Natural gas engine

The **TERRITO U CNG** responds perfectly to the requirements for intercity transport, combining performance, capacity and environmental protection. The model is available in two different lengths: 12.20 m and 13 m, and provides optimal flexibility to suit a variety of transportation purposes, while maximising passenger capacity and maximising on-board space.

The engine is designed to be stoichiometric, and operates without EGR, SCR or a particulate filter via an especially effective combustion process that means that the engine does not need any additives.

The **TERRITO U CNG** is 100% compatible with biomethane, which is a fuel produced from waste. As such, it produces carbon-neutral emissions and has a low-impact on climate change.

Low-emission
Natural gas engine

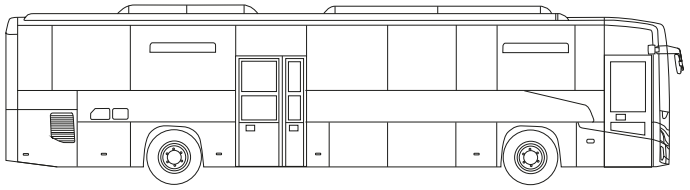

- **Low-emission solution for intercity routes**
- **Optimised length and passenger capacity**
- **Independent front suspension**
- **CNG fuel caps on both sides of the vehicle**

Passenger comfort is also a priority, thanks to its independent front wheel suspension, which smoothly absorbs the impacts of uneven road surfaces. As a result, whether it's for the daily commute or long-distance travel, journeys are a safer and more pleasant experience.

With its durable, environmentally friendly design, the **TERRITO U CNG** is the right choice for operators looking for a effective long-term intercity transport solution.

TERRITO U CNG 12

12,200 × 2,550 × 3,500 mm

Up to **57** passengers

235 kW (320 HP) / 2,000 rpm

TERRITO U CNG 13

13,000 × 2,550 × 3,500 mm

Up to **63** passengers

235 kW (320 HP) / 2,000 rpm

TERRITO U

Diesel Engine

The **TERRITO U**, is equipped with a Euro 6 diesel engine and designed to meet the challenges of intercity travel while also providing a high level of comfort. With capacity for up to 63 passengers and 5 m³ of luggage storage, the model stands out for its versatility.

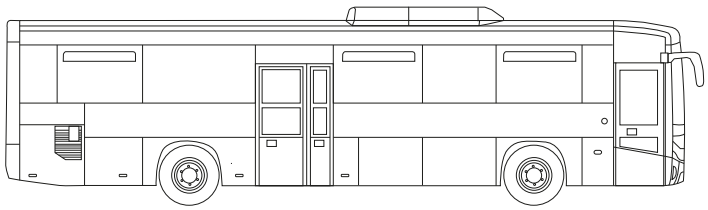

Its stylish interior includes modern LED lighting and reclining seats with leather headrests, with accessibility provided by a central double door. A wheelchair space and a lifting platform available as an option.

Euro 6 Diesel
XTL- and HVO-Compatible

- **Versatile and functional**
- **Independent front wheel suspension**
- **Large luggage capacity**
- **Available as a school route version**
- **Easy maintenance**

The **TERRITO U** includes an optimised drivetrain, providing reduced operating costs and fuel consumption. Its manual or (optionally) automatic gearbox offers a smooth drive, and its independent front wheel suspension delivers enhanced comfort on all road types.
